Three had been injured and his son James Nicholson knocked down. Witness George Renton said the car had also passed him at between 50 and 60 miles per hour and there had almost been an accident. Thomas Whitelaw, Blacksmith, had heard shouting then the crash. James Rae, milkman and William White, ploughman, both of East Hope, said they had seen the car going over 40 miles per hour. James Renton saw the car 'going at a hard pace' on the wrong side of the road. Cross examination depended on the darkness and the witness's estimates of speed. There was very extensive coverage of the defence and prosecution, at one stage everything was blamed on the fact there were cattle on the road.
